-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The abstract of the disclosure is objected to because the legal phraseology such as "**means**" or "**comprises**" often used in patent claims should be avoided in the abstract. The abstract of the disclosure is also objected to because it should avoid using phrases which can be implied, such as, " This disclosure concerns", "**the invention relates to**" etc. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Shirakawa (JP08171987A). Shirakawa discloses a microwave oven comprising a cavity formed inside of a case (1) of the apparatus; a tray (7) installed inside of the cavity, on which the article (6) to be heated is positioned; and an oscillating means (25), "ultrasonic" connected to the tray, for oscillating the tray (7).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3742

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2, 5-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shirakawa (JP08171987A) in view of JP 09050884A. Shirakawa discloses substantially all features of the claimed invention except the oscillating means is in contact with the tray. JP 09050884A discloses a workpiece (7) for holding a food to be cook and ultrasonic oscillator (8) is fastened under the workpiece (7). It would have been obvious to one having ordinary skill in the art at the time the invention was made to utilize in Shirakawa an oscillating means is in contact with the tray (the workpiece) as taught by JP 09050884A in order to oscillate to the tray more effective.

7. Claims 3-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show or suggest the oscillating means is in contact with the tray, and fastened to the case by using a bracket as a fixing means as recited in claims 3-4.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Aoki et al (US 5,270,510) discloses a microwave oven. Taguchi et al (US 4,518,839) discloses a high frequency heating apparatus with wireless temperature probe.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang T Van whose telephone number is 703-306-9162. The examiner can normally be reached on 8:00Am 7:00Pm M-Th.
